Game Devlopment

i made some simple video games using c# on unity 3d and learnd how to make scripts for camera, player movments and more.
also 3d design to make some characters for my games and animate them

2021
Shopify
Online Store

i made a lot of good looking onlline stores using shopify assets and tried to solve all problems and make the store loads quickly with rates from 56 to 60, i learned how to use colors to make customers feel the the hype of the site with the product they want to sell and avoided to use some colors that make people ignore the whole website.
